

Eslam Mohamed Fathy Dawoud

Software Engineer / Full-Stack Developer

eslammohamed010606@gmail.com • +20 10 60627954 • Giza, Egypt

[LinkedIn](#)

Profile

Dedicated Software Engineer and Full-Stack Developer with a strong foundation in designing and developing scalable web applications. Passionate about problem-solving and delivering end-to-end software solutions. Detail-oriented and eager to leverage both frontend and backend development skills to build user-friendly interfaces and robust backend systems.

Education

Bachelor of Science in Computers and Artificial Intelligence at Capital University, **September 2024 - Present**
Giza, Egypt

Internships

Full Stack .NET Trainee at Digital Egypt Pioneers Initiative (DEPI), Giza, Egypt **August 2026 - Present**

- Developed full-stack web applications using C#, .NET, ASP.NET Core, Web APIs, Entity Framework Core, and SQL Server
- Practiced database design, API development, and integration of backend services with web interfaces.
- Applied Git and software development best practices throughout hands-on technical training.

Skills

Languages: C#, C++, Python, Dart, JavaScript, HTML, CSS, SQL

Frameworks & Backend: .NET, ASP.NET Core, Web APIs, Entity Framework Core, Flutter (Basics)

Databases & Tools: SQL Server, Git

Core Competencies: Full-Stack .NET Development, Database Design, API Development

Projects

Library Management System

Description: Developed a management application using C++ and Object-Oriented Programming (OOP) principles to track book inventories, handle user borrowing records, and streamline library operations.

Smart Store Management System

Built a structured application applying core Object-Oriented Programming (OOP) principles. Designed modular components for inventory tracking and user operations.
